

GetAllNodesFromGraph

```
graph LR; A[GetAllNodesFromGraph] --> B[HF::SpatialStructures::Graph::Nodes];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and a black border, containing the text 'GetAllNodesFromGraph'. The right box has a white background and a black border, containing the text 'HF::SpatialStructures::Graph::Nodes' on two lines.
