

NodeExampleTests::TEST

GraphExampleTests::TEST

HF::SpatialStructures  
::Node::getArray

```
graph LR; A[NodeExampleTests::TEST] --> C[HF::SpatialStructures::Node::getArray]; B[GraphExampleTests::TEST] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'NodeExampleTests::TEST' and the bottom box contains 'GraphExampleTests::TEST'. From the right side of each of these boxes, a blue arrow points towards a single gray rectangular box on the right. This gray box contains the text 'HF::SpatialStructures' on the top line and '::Node::getArray' on the bottom line. The arrows indicate that both test cases are associated with or call the 'getArray' method of the 'Node' class within the 'SpatialStructures' namespace of the 'HF' module.
