

nlohmann::detail::iter
_impl::set_begin

```
graph LR; A[nlohmann::detail::iter_impl::set_begin] --> B[nlohmann::detail::primitive_iterator_t::set_begin]; A --> C[nlohmann::detail::primitive_iterator_t::set_end];
```

This diagram illustrates a function call sequence. A central box on the left, labeled 'nlohmann::detail::iter_impl::set_begin', has two blue arrows pointing to two boxes on the right. The top box is labeled 'nlohmann::detail::primitive_iterator_t::set_begin' and the bottom box is labeled 'nlohmann::detail::primitive_iterator_t::set_end'.
