

nlohmann::basic_json
::basic_json

nlohmann::adl_serializer
::to_json

nlohmann::detail::to_json

```
graph LR; A[nlohmann::basic_json::basic_json] --> C[nlohmann::detail::to_json]; B[nlohmann::adl_serializer::to_json] --> C;
```

The diagram illustrates a relationship between three code elements. On the left, there are two white rectangular boxes. The top box contains the text 'nlohmann::basic_json' followed by '::basic_json' on a new line. The bottom box contains 'nlohmann::adl_serializer' followed by '::to_json' on a new line. On the right, there is a gray rectangular box containing the text 'nlohmann::detail::to_json'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both functions on the left are associated with or point to the function in the gray box.
