

nlohmann::json_pointer
::parent_pointer

nlohmann::basic_json
::patch

nlohmann::json_pointer
::pop_back

```
graph LR; A[nlohmann::json_pointer::parent_pointer] --> C[nlohmann::json_pointer::pop_back]; B[nlohmann::basic_json::patch] --> C;
```

The diagram illustrates a relationship between three code elements. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'nlohmann::json_pointer' followed by '::parent_pointer' on a new line. The bottom box contains 'nlohmann::basic_json' followed by '::patch' on a new line. Two blue arrows originate from the right side of these boxes. The arrow from the top box points to the top-left corner of a gray rectangular box on the right. The arrow from the bottom box points to the top-left corner of the same gray box. The gray box contains the text 'nlohmann::json_pointer' followed by '::pop_back' on a new line.
