

GraphExampleTests::TEST

```
graph LR; A[GraphExampleTests::TEST] --> B[HF::SpatialStructures::Node::getArray]; A --> C[HF::SpatialStructures::Graph::Nodes];
```

The diagram illustrates a call from the `GraphExampleTests::TEST` function to two methods within the `HF::SpatialStructures` namespace. The source function is highlighted in a grey box, and the target methods are in white boxes. Two blue arrows originate from the right side of the source box and point to the left side of each target box.

HF::SpatialStructures
::Node::getArray

HF::SpatialStructures
::Graph::Nodes
