

nanort::BVHAccel::ListNode
Intersections

```
graph LR; A[nanort::BVHAccel::ListNode  
Intersections] --> B[nanort::IntersectRayAABB]; A --> C[nanort::vsafe_inverse];
```

The diagram illustrates a call to the `nanort::IntersectRayAABB` function. A gray box on the left, labeled `nanort::BVHAccel::ListNode` and `Intersections`, has two blue arrows pointing to two white boxes on the right. The top white box is labeled `nanort::IntersectRayAABB`, and the bottom white box is labeled `nanort::vsafe_inverse`.
