EnergyExpenditure

HF::SpatialStructures
::CostAlgorithms::Calculate
EnergyExpenditure

```
graph LR; A[CalculateAndStoreEnergyExpenditure] --> D[HF::SpatialStructures::CostAlgorithms::CalculateEnergyExpenditure]; B[HF::SpatialStructures::CostAlgorithms::CalculateEnergyExpenditure] --> D;
```

The diagram illustrates a mapping or transformation. On the left, there are two source boxes. The top box, 'CalculateAndStoreEnergyExpenditure', is a simple rectangle with a black border. The bottom box, 'HF::SpatialStructures::CostAlgorithms::CalculateEnergyExpenditure', is also a rectangle with a black border. Two blue arrows originate from these boxes: one from the right side of the top box and one from the right side of the bottom box. Both arrows point towards a single target box on the right. This target box, 'HF::SpatialStructures::CostAlgorithms::CalculateEnergyExpenditure', is shaded gray and has a black border. The text inside the target box is arranged in three lines.
