

```
nanort::BVHAccel< vertex  
_t >::BuildTree
```

```
graph LR; A[nanort::BVHAccel< vertex  
_t >::BuildTree] --> B[nanort::GetBoundingBox];
```

A diagram showing a call from the `BuildTree` method of the `nanort::BVHAccel< vertex_t >` class to the `nanort::GetBoundingBox` function. The call is represented by a blue arrow pointing from the left box to the right box.

```
nanort::GetBoundingBox
```
