

nlohmann::detail::json  
\_sax\_dom\_parser::number\_float

```
graph LR; A["nlohmann::detail::json  
_sax_dom_parser::number_float"] --> B["nlohmann::detail::json  
_sax_dom_parser::handle_value"]
```

A diagram showing a call from the `number_float` function to the `handle_value` function. The `number_float` function is represented by a grey box on the left, and the `handle_value` function is represented by a white box on the right. A blue arrow points from the `number_float` box to the `handle_value` box.
