

CostAlgorithmsTests
::TEST

NodeExampleTests::TEST

HF::SpatialStructures
::CostAlgorithms::euclidean
_distance

```
graph LR; A[CostAlgorithmsTests::TEST] --> C[HF::SpatialStructures::CostAlgorithms::euclidean_distance]; B[NodeExampleTests::TEST] --> C;
```

The diagram illustrates a dependency or relationship between three modules. On the left, there are two white rectangular boxes. The top box contains the text 'CostAlgorithmsTests' followed by '::TEST' on a new line. The bottom box contains the text 'NodeExampleTests::TEST'. On the right, there is a larger gray rectangular box containing the text 'HF::SpatialStructures' followed by '::CostAlgorithms::euclidean' on a new line, and '_distance' on a third line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both test modules are associated with or depend on the target module.
