

GraphExampleTests::TEST

```
graph LR; A[GraphExampleTests::TEST] --> B[HF::SpatialStructures::Graph::Nodes]; A --> C[HF::SpatialStructures::Graph::NodesAsFloat3];
```

The diagram illustrates a test function, `GraphExampleTests::TEST`, which is represented in a grey box. Two blue arrows originate from the right side of this box and point to two separate white boxes. The top white box contains the text `HF::SpatialStructures::Graph::Nodes`, and the bottom white box contains the text `HF::SpatialStructures::Graph::NodesAsFloat3`. This visualizes the test function's interaction with or verification of these two specific data structures or types.

HF::SpatialStructures  
::Graph::Nodes

HF::SpatialStructures  
::Graph::NodesAsFloat3
