

nlohmann::basic\_json  
::erase

nlohmann::basic\_json  
::max\_size

nlohmann::basic\_json  
::size

```
graph LR; A[nlohmann::basic_json::erase] --> C[nlohmann::basic_json::size]; B[nlohmann::basic_json::max_size] --> C;
```

The diagram illustrates a relationship between three functions of the nlohmann::basic\_json class. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'nlohmann::basic\_json::erase' and the bottom box contains 'nlohmann::basic\_json::max\_size'. On the right, a gray rectangular box contains the text 'nlohmann::basic\_json::size'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'erase' and 'max\_size' functions are related to or perhaps delegate to the 'size' function.
