

nlohmann::detail::iter
_impl::set_begin

```
graph LR; A[nlohmann::detail::iter_impl::set_begin] --> B[nlohmann::detail::primitive_iterator_t::set_begin]; A --> C[nlohmann::detail::primitive_iterator_t::set_end];
```

The diagram illustrates a function call relationship. A gray box on the left, labeled 'nlohmann::detail::iter_impl::set_begin', has two blue arrows pointing to two white boxes on the right. The top white box is labeled 'nlohmann::detail::primitive_iterator_t::set_begin' and the bottom white box is labeled 'nlohmann::detail::primitive_iterator_t::set_end'.
